

PIG® Cinchable Pipe Leak Diverter

#TLS182 - 19.5" x 32"

Drawstrings cinch tightly around valves, fittings and other oddly shaped components to capture leaks at the source.

- Cinchable drawstrings get you as close as possible to the source of a leak to capture more of the escaping liquid
- Compact size lets you target a specific leak in tight spaces
- Nonpermeable material is vinyl-coated for strength and durability; resists punctures and mildew for long life
- UV resistant up to 12 months for long-term outdoor use without degradation
- Accepts a standard 3/4" hose connection to safely channel liquid to floor drain or collection container (hose sold separately)
- Flow rate of 3.33 gallons per minute when used with a 1/2" ID hose
